**Introduction**

The Workshop on Children and Traffic was arranged by Thyra Uth Thomsen, Roskiilde University, Denmark, and funded by the Danish Transport Council. It took place on May 2.-3. 2002 in Copenhagen, Denmark.

The target audience of the workshop was researchers focusing on children and traffic from a social science perspective. The aim of the workshop was to accumulate and exchange ‘state of the art knowledge’ on the subject matter, to get acquainted with fellow researchers within the field, and to establish a network for future co-operation. The presentations mainly focused on the following topics:

- How children’s environment affects their mobility
- Children’s perspectives on traffic/mobility
- Educational perspectives on children’s mobility
- Children’s independent/dependent mobility
- Children in different real-traffic settings

The discussions, however, went beyond these themes and identified children’s rights and children’s participation in decision making as core topics.

In the following I will address the three major outcomes of the workshop, that is the gathering of themes and opportunities for future research within the area of children and mobility, the establishment of the Network on Children and Mobility and finally the participants’ contributions to the workshop itself.

**Themes and opportunities for future research**

The following is the result of a brainstorm on future challenges within this field of research. The brainstorm brought about a wide variety of topics, which deserve our attention. The topics can be summarized in a small number of interrelated areas:

*Human rights/children’s rights*

- Charters
- Participation and involvement of children
- Best approach to include children in policy making processes
- Health, e.g. allergies and time spent in cars

*Children as family members*

- Access:
  - How is children’s accessibility affected by family structure/family’s car ownership?
  - Positive and negative effects of car accessibility on children’s lives in general
- Reasons for parental escorting in general and parent’s perception of risk
What is a child friendly city/suburb/small town/rural area?

- Planning for real with children
- Children’s pictures of accessibility as a planning tool
- Safer routes to school in rural districts
- Lack of focus on trips linked to leisure activities

Shaping child friendly mobility

- How to influence policy makers, planners etc. to improve children’s conditions
- Lack of communication between different road user groups
- Lack of communication between children, road engineers and educators
- Collaboration with landscape architects in order to create room for non-organized leisure activities and in order to increase walking
- The privatisation of public transport versus the financing of children’s transport

The role of information and experience in shaping the worldview of children

- Car usage and the perception of the world and danger
- Children as information seekers and the role of IT
- The link between media and the perception of mobility

Intensive comparative studies

- Behaviour-perception-expectations
- EU, Asia, Africa, USA, Australia, etc. (research gap in developing countries)
- Lack of cross cultural perspectives in mobility research on children

Explanation/methodology

- Transition matrix of behaviour (behavioural changes over time, longitudinal studies of children’s mobility behaviour)
- Disaggregating ‘children’, e.g. in different ethnic groups
- Gender differences in children’s travel behaviour
- Lack of systematic, cross cultural collection of travel data on children
- Lack of knowledge about the best mechanisms for affecting children’s long term mobility awareness and behaviour

Clearly, the above indicates a deep concern with the dilemma of children being both the objects and subjects of research. On the one hand we all want to create the best possible conditions for children in the modern (auto)mobile age, which on the other hand may lead to the pitfall of imposing our own expert/adult worldview rather than finding out what the children want.

The deeply felt need to integrate children in the research and policymaking processes raises fundamental methodological concerns that need to be addressed. Perhaps, the pedagogic field of research, which has dealt with these issues for the longest time, can be of inspiration in this matter.

Moreover the above clearly recognizes that children are not isolated research objects, but active parts of a family, society and multicultural world with many different living conditions and worldviews. Children are not just ‘children’ per se, but also boys and girls from Europe, Ghana or elsewhere. Also, they do not stay children for long. They turn into adults and bring forward and
further develop our legacy, which gives us even one more reason to be concerned with the ‘mobility heritage’ that we may pass on to them.

Finally, the above pinpoints some of the many blank spots in our knowledge on children and mobility. On the other hand it also pinpoints our lack of ability to transfer what we do know into the creation of a better environment for children. As far as our lack of knowledge is concerned the group of international researchers joining this workshop sympathized with the need for systematic, longitudinal and cross-cultural research on children and mobility, which could be facilitated by an international, comparative and long-term collection of travel data on children.

The Network on Children and Mobility

So far, the Network on Children and Mobility consists of the participants of the workshop in Copenhagen in May 2002. You can find the list of participants and contact information at the end of the Workbook. However, several other researchers have shown interest in participating in the Network in order to share information, in order to participate in future meetings or in order to engage in joint research in the future. Mrs. Thyra Uth Thomsen (tut@teksam.ruc.dk) and Mrs. Trine Nordgaard (trinen@ruc.dk) at Roskilde University, Denmark, will be the administrators the Network on Children and Mobility. Please use the above e-mails, if you have anything you want to share with the network or if you would like to join the network.

The network administrators will try to rise funding for future network meetings in Denmark. The date for the next meeting of the network has not been set – yet – but will probably take place in spring 2004.

Participants’ contributions to the workshop

The participants’ contributions to the workshop are contained in the following programme of the workshop. You can download material about the presentations you find interesting by pressing the hyperlink beneath the title of the presentation.

Papers were optional and thus the enclosed material covering the different presentations does not necessarily cover the entire presentation. The enclosed material consists of either papers, slides or other relevant information that the participants chose to add to this workbook. Please do not hesitate to contact the researchers for further information. Contact information is listed at the end of the workbook.

List of participants in order of presentations:

Name: John Whitelegg
Academic background: Ph.D. in Geography
Position: Professor at the Dept. of Biology, University of York
Address: 53 Derwent Rd, GB-Lancaster LA1 3ES, Great Britain
E-mail: ecologic@gn.apc.org

Name: Roger Mackett
Academic background: MSc in Regional and Urban Planning, PhD in Geography.
Affiliation: Centre for Transport Studies, University College London
Position: Professor of Transport Studies
Address: Centre for Transport Studies, University College London, Gower Street, London, WC1E 6BT, Great Britain.
Phone no: + 44 20 7679 1554
Fax no: + 44 20 7679 1567
E-mail: rlm@transport.ucl.ac.uk

Name: Liv Øvstedal
Academic background: MSc Civil Engineer
Position: Research Scientist
Affiliation: SINTEF Civil and Environmental Engineering, Transport studies
Address: N-7465 Trondheim, Norway
Phone No: +47 73 59 82 48
Fax No: +47 73 56 46
E-mail: Liv.Ovstedal@sintef.no

Name: Maria Johansson
Academic background: MSc Psychology, PhD Environmental Psychology
Position: Senior Researcher
Affiliation: Environmental Psychology Unit, Lund Institute of Technology
Address: Box 118, SE-221 00 Lund, Sweden
Phone No: +46 46 227169
Fax No: +46 46 2227603
E-mail: Maria.Johansson@mpe.lth.se

Name: Thyra Uth Thomsen
Academic background: MSc in Marketing, Ph.D. in Consumer Behaviour
Position: Assistant Research Professor
Affiliation: Department of Environment, Technology and Social Studies, Roskilde University
Address: Building 11.1., P.O. Box 260, 4000 Roskilde, Denmark
Phone No: +45 46742544
Fax No: +45 46743041
E-mail: tut@teksam.ruc.dk

Name: Kenneth Lupton
Academic background: BSc MPhil ACGI MIHT
Position: Transport Research Manager
Affiliation: Transport Management Research Centre, Middlesex University
Address: Queensway, Enfield, Middlesex EN3 4SF, Great Britain
Phone No: +44 (0)20 8411 6817
Fax No: +44 (0)20 8411 6390
E-mail: k.lupton@mdx.ac.uk

Name: Mariana Bayley
Academic background: BSc in Psychology, MSc in Health Psychology.
Position: Research Assistant
Affiliation: Transport Management Research Centre, Middlesex University
Address: Queensway, Enfield, Middlesex EN3 4SF, Great Britain
E-mail: m.bayley@mdx.ac.uk

Name: Holger Dalkmann
Academic background: MSc in applied Geography (Dipl.–Geogr.)
Position: Senior researcher
Affiliation: Wuppertal Institute for Climate, Energy and Environment – Transport Division
Address: Döppersberg 19 42103 Wuppertal, Germany
Phone No: ++49-(0)202-2492233
Fax No: ++49-(0)202-2492263
E-mail: holger.dalkmann@wupperinst.org

Name: Marco Viviani
Affiliation: Oekoinstitut Suedtirol / Alto Adige
Position: Energy expert and consultant
Address: Via Talvera 2
39100 Bolzano / Bozen - Italy
Phone No: ++39-0471-980048
Fax No: ++39-0471-971906
E-mail: viviani@ecoinstituto.it

Name: Eirin Olaussen Ryeng
Academic Background: Dr.ing. (civil engineer with doctorate within transportation engineering)
Position: post.doc.
Affiliation: The Norwegian University of Science and Technology
Address: N-7491 Trondheim, Norway
Phone No: +47 73 59 46 62
Fax No: +47 73 59 46 56
E-mail: eirin.ryeng@bygg.ntnu.no

Name: Marianne Stølan Rostoft
Academic background: MSc in Human Movement Science
Position: Researcher
Affiliation: The Municipality of Oslo
Address: Maridalsveien 3, N-0178 Oslo, Norway
Phone No: +47 23 46 04 85
Fax No: +47 23 46 04 10
E-mail: marianne.rostoft@hve.oslo.kommune.no

**Name: Karin Sandqvist**
Academic background: Certified psychologist, Ph D in Education
Affiliation: Stockholm Institute of Education
Position: Associate professor of Education
Address: Box 47308, S- 100 74 Stockholm, Sweden
Phone No: 46 8 737 55 84
Fax No: 46 8 737 56 91
E-mail: karin.sandqvist@lhs.se

**Name: Jeanette Knudsen**
Academic background: B.A., Child and Youth Studies
Position: Graduate student
Affiliation: Stockholm Institute of Education
Address: Box 47308, S- 100 74 Stockholm, Sweden

**Name: Gina Porter**
Academic background: MSc Geography, PhD
Position: Senior Research Fellow
Affiliation: University of Durham, UK
Address: Department of Anthropology, University of Durham, 43 Old Elvet, Durham DH1 3HN, Great Britain
Phone No: 00-44-1765 - 635285
Fax No: 00-44-1765-690937
E-mail: r.e.porter@durham.ac.uk

**Name: Kathrin Blaufuss**
Academic background: BSc (Hons) Environmental Science, MA Development Studies
Position: Research assistant
Affiliation: University of Durham, UK
Address: Department of Anthropology, University of Durham, 43 Old Elvet, Durham DH1 3HN, Great Britain
E-mail: k.u.blaufuss@durham.ac.uk

**Other invited guests:**

**Name: Lise Drewes Nielsen**
Academic background: Mag.scient.soc.
Position: Professor
