Forskning og undervisning

Jeg forsker og underviser bl.a. i moderne samfund og teorier herom, herunder de etiske og æstetiske aspekters betydning og jeg har en lang erfaring med at undervise i samfundsvidenskabelig videnskabsteori og metodologi. Desuden beskæftiger jeg mig med byteori og planlægning, miljøregulering og offentlighedens inddragelse heri. Aktuelt forsker jeg i bæredygtig, kompakt byudvikling, hvor beboernes tilvalg er afgørende frem for knaphedens tvangsmekanismer.
